Fran: Do you have the ATSDR website link? I was looking for it but have not found it yet.

Tito:

ATSDR has posted their statement on their website so it is final.

Fran

Hey R3:

Not sure about how you have all come out of this snow storm. Hope that things are ok up in Philly.

Kathy: I know that you are in Dallas ... hope is much warmer over there ...

Has ATSDR finalized and posted their statement on this new chemical ? Any issues in the field with this new finding ? Any changes to our regulatory authority that you've identified as a result of this new information ? Any other developments ?

Please let us know what is new on this matter.

Thanks,

Additional info on both CSB source and the chemical at issue. Thanks to Fran, Kathy and Tito for pulling this together!

From ATSDR - this is NOT cleared for public release.

INTERNAL DRAFT NOT FOR EXTERNAL DISTRIBUTION

This is the statement I mentioned earlier tonight that CDC prepared based on the new information we received today about PPH. We are sharing with state now. This may get posted on our website later this evening. I can tell you how much I appreciate your patience tonight in waiting to hear more from us on this subject. At this point in the evening and with this new timetable for posting that I just heard about, I realize there is very limited time for any discussion about this with EPA R3. Please let me know if you'd care to share any comments or you would like to just acknowledge that you are aware we are doing this at this point.
